BOW VALLEY SUPPLY CO.

M. B. GARRETT

Our Eleventh Year

With last issue we commenced the 11th year of publication of the *Strathmore and Bow Valley Standard*. Our first issue appeared on the 2nd of October, 1909, and since then publication has been continued steadily, with the exception of an interregnum in the last half of the last year, the reason for which our readers probably know as well as we do ourselves.

We have to thank the people of Strathmore and district for their support during the past ten years, and we have always done our best to justify it by giving them a newspaper that would be a credit to the town and district and valuable both from the news and advertising point of view.

Within the last week we have installed a typesetting machine, which will enable us to give a considerable amount more of reading matter than formerly. In a few weeks we should get settled down and running smoothly under the new system. The typesetting machine, while it has been for a considerable time put in the daily newspaper, has only recently been introduced into the country offices. It means a considerable extra cost, both in initial cost and operation, but we have faith in the district and believe the innovation will be justified.

Readers will note from our advertising columns that a meeting of the Strathmore U. F. A. will be held in the King Edward sample rooms on Saturday of this week for the purpose of taking orders for bound apples through the United Grain Growers.

Fire Prevention Day

By Royal Proclamation, His Excellency, the Governor General of Canada has designated October 25th as Fire Prevention Day. On that day, lessons on fire prevention subjects will be given in every public school, public meetings will be held in many of the larger cities, towns and villages, and the owners and occupants of property everywhere throughout Canada will be requested to give special attention to the removal of fire hazards from their premises.

Fire is one of the most serious economic problems confronting Canada at the present time. The public in general is vitally affected by the tremendous losses annually incurred by fire and the numerous expenditures rendered necessary to adequately protect life and property from its ravages. Seeing that at least seventy-five per cent. of all fires are caused by carelessness and can therefore be prevented, it is the obvious duty of municipal authorities, fire department officials, boards of trade and other representative citizen bodies to bring the matter to the attention of the people.

Most fires are caused by carelessness, and mostly occur in the winter. This is a good time to go over stoves, pipes, chimneys, etc., and see that they are in good shape. Two Provincial inspectors visited Strathmore recently and have insisted on a number of local people putting in brick chimneys, and we hope they will comply with good grace. Under a Dominion Act passed this year, it is now a criminal offence to have a fire started on your premises through carelessness.

Everyone should get busy, therefore, to-morrow, and put their heating apparatus in a safe condition.

Memorial Hall

Public Responding Generously

Though the canvass for subscriptions for the G.W.V.A. Memorial Hall is just getting under way, those approached so far, have responded in a very generous manner, and there is no doubt that the public mind is very much in favor of the scheme. The amount collected to October 7th, as per list below, is \$1520.00, part of which is paid and the remainder promised.

An appeal is being made for volunteer workers to assist in the canvass of the country districts, as without their assistance it will be impossible to cover the district thoroughly.

The Government, as recently announced, are promising to contribute 25 per cent. of the cost of building soldiers clubs in cities throughout the Province, and though Strathmore is not incorporated as a town, an endeavor will be made to secure a similar grant.

With a united effort, and the start already made it will be easily possible to raise the amount necessary up to the end of this month, and allow building work to be started.

Following is a list of subscriptions to noon, October 7th—

Local Hottings

Don't forget to come to St. Michael's Church next Sunday to thank God for the harvest. It is sincerely desired that not only individually but as a community we should join in giving thanks for our first harvest since the end of the great war. Every body welcome.

Thanksgiving Day, Monday, Oct. 13th, will be a public holiday, and all stores will be closed.

Municipal Hall Insurance has proved a good thing for the farmers this year. As noted in last issue the rate has been fixed at 6 per cent., while the private companies rate was 13 1/2 per cent. of the receipts of the insurance Board have been held back to form the nucleus of a sinking fund. Reeve Watson, of Bow Valley Municipality, attended the meeting of the Board in Calgary at which the rate was set.

A meeting of the women of the congregation of St. Michael's Church, will be held at the Rectory on Wed. October 8th, at 4 p.m., for the purpose of organizing a Guild of workers for the Church.

Many sportsmen have been out after prairie chickens since the opening of the season on October 1st, and birds have been fairly plentiful. It should be noted that there is a bag limit of ten grouse per day, or 100 for the season. If two partridge (ruffed grouse) are killed, only eight prairie chicken will be allowed to be killed in the same day.

Mr. C. J. Bowlus, of Blackie, was here on a visit last week looking over his crop south of town, which is being farmed by Mr. Arthur Mertens. He is well pleased with his crop here, which has much increased by the use of irrigation. This year on his farm in Alberta, Mr. Bowlus used the first automatic stooker seen in the province of Alberta.

Mr. W. W. Webster, of Rushford, Minnesota, has been spending a few days in the district looking over his crop here, which is being farmed by Mr. Praker. He finds it much better than he had expected by the reports of Alberta crops that had been current in the States.

Mr. H. Dawkins handed in to our office some exceptionally large potatoes, grown on his farm close to town. Large as they were, they made very good eating.

Mr. and Mrs. Wm. Campbell, of Cayley, Alberta, visited their daughter, Mrs. Wm. Marshall, over Sunday. Mr. Hugh McKay, of St. Mary's, Ontario, spent the week-end with Mr. and Mrs. Marshall.

Help the returned men to get a suitable building for a clubroom by subscribing to the Memorial Hall project.

Capt. Hugh Harvey, brother of Mr. W.R. Harvey, with Mrs. Harvey and one child, has arrived here from England. His intention is to reside permanently in Canada.

Invitations are out for the Strathmore Bachelors Ball, which is to be held on Friday, October 17th. The local bachelors are sparing no effort to make this a most enjoyable function.

Have you figured out the amount of your subscription yet to the Memorial Hall.

One of the old-timers, A. R. McGregor, arrived back last Thursday, after nearly five years service overseas with the Army Veterinary Corps. "Scotty" is looking very well on it, however.

Mrs. W. McLagan returned home on Saturday, after several months spent in Eastern Canada.

Have you subscribed your bit to the War Memorial yet. If not, do it now.

The marriage took place on Wednesday, October 1st, at Bankview Methodist Church, Calgary, by Rev. J. P. Berry, of Janie, daughter of Mr. and Mrs. Z. Grimshaw, to Mr. Howard Lyons, of Cheadle. Wedding supper was served at the Palliser, following on the ceremony, and afterwards the happy couple left on a short honeymoon. The bridegroom only returned from overseas a few weeks ago. Both the newlyweds are well known locally, and are receiving the hearty congratulations and best wishes of their many friends.

Canvassers wanted to volunteer for work in connection with the G.W.V.A. Memorial Hall, from the country districts. Get in touch with J. H. M. Marsh, who is in charge of the canvass arrangements.

CHANGES IN TRAIN TIMES

Commencing October 12th, the C. P. R. announces that the times for trains Nos. 3 and 4, stopping at Strathmore, will be as follows—

No. 3, going west 18.09.
No. 4, going east, 16.02.

Times in both cases are railway time.

Trains No. 1 and 2 will run over the Gleichen sub-division.

AN UNFORTUNATE SOLDIER

On Saturday morning last an elderly man recently returned from the battlefields of France, sought protection of the local Provincial Constable. He was apparently suffering from delusions, and was later in the day charged under the Insanity Act before Justice of the Peace Martin, and upon the evidence of the Constable and Doctor Glavin was committed to Calgary to await the Attorney General's decision. A coincidence in the case is that the unfortunate man and the presiding justice in the court proceedings were comrades in the same company and unit with which they fought together in France.

AEROPLANE VISITS STRATHMORE

Strathmore had its first visit from an aeroplane on Saturday last, when Capt. Brett alighted in a field about half a mile north of town and spent about half an hour here. He was on his way back from Drumheller, and stopped here for the purpose of replenishing his gasoline supply.

Capt. Brett, who is associated with Capt. McCall in the McCall Aero Corporation, said he would be willing to come down to Strathmore on Saturday, October 11, and give some of the local people the opportunity of a joy-ride in the air. To do so, however, he would have to have a guarantee of fifteen people willing to take a ten minute flight.

Those who wish to go up should hand their names in to the Standard Office by to-morrow (Thursday) afternoon without fail.

50,000 Land Paid For

This spring T. H. Kruse sold F. W. Logan a quarter-section with a crop of wheat on it at a price of \$50 per acre, or a total of \$8000. Mr. Logan has recently threshed a crop totalling 1488 bushels off it, averaging about 27 1/2 bushels per acre, which at present prices for grain should bring about \$9000. After deducting the expenses of cutting, threshing, etc., this leaves Mr. Logan with his land paid for in one year.

The above needs no comment.

Threshing Yields

The fine dry weather of the past two weeks has greatly helped the farmers, and threshing has been proceeding continuously.

As had been expected, the yields north-east and east of town are much better than those south and west, this having been caused by the uneven precipitation in the spring, and also to a hailstorm which destroyed a number of crops in the Carleton Place district. At the same time, however, farmers in these districts have done better than they thought they would, and some good crops are reported from there, while there will be an abundance of wheat.

Irrigated grain, so far as it has been threshed, has yielded well, and has amply justified the time spent in irrigating.

From Craigantler district, where many of the farmers are consistent irrigators, and which has always been one of the banner crop-raising districts, the following yields are reported: B. Johansson, 42 1/2 bushels on summerfallow, fall irrigated, and 31 bushels per acre over all lands; Hansen and Laverson, between 40 and 50 bushels per acre, on irrigated land, and 23 on dry; F. Duckworth, 26 bushels per acre on stubble. Lars Sorenson who started in the Craigantler district in 1912 with nothing but a team of horses, is now the owner of two and a quarter sections, having just purchased three quarter sections at a good figure from Messrs. Boyd & Morrison, New York. He is a consistent user of irrigation.

Coming closer to home, we have not got many of the yields in yet, but the wheat crops on Ruppel's, England's, Stangier's, Swenson's and Boyles, and several others are averaging about 30 bushels per acre. At J. J. Weyers' summerfallow averaged 25 and his stubble, etc., 15. Laurysen's summerfallow went 25, and his stubble 10. Mrs. Harwood's crop averaged 18 bushels summerfallow, stubble 10, and irrigated spring breaking 16. Dr. J. W. Gilpin's stubbled in crop averaged 21 bushel per acre. The above are mostly dry land crops. We have not yet got figures for the irrigated crops, but hope to be able to publish them soon.

Most of the grain coming into the elevators at present is grading No. 2. Some of this crop threshed after the rains, graded tough, and a deduction was made for treating.

Stockmen

The **BLACKLEG SEASON** is now approaching, and you would be wise to vaccinate your young stock now.

Blackleg cannot be cured, but may be prevented. We sell:

Blacklegoids, 10 doses	\$1.00
" 50 doses	4.50
" 100 doses	8.50

Dear Sir Herbert,

I am pleased to be the holder of a Canadian War Savings Certificate. I am delighted to find that in Canada you have War Savings Stamps on sale, similar to those we have in England.

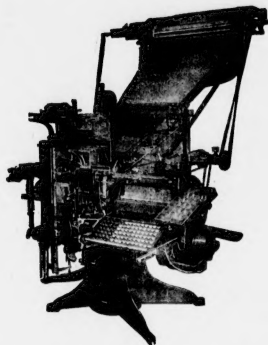

I wish the War Savings campaign every success.

I remain
yours sincerely

Sir Herbert B. Ames,
Chairman,
National War Savings Committee,
Ottawa.

Facsimile of the letter sent to the Chairman of the National War Savings Committee by His Royal Highness the Prince of Wales, at the time he purchased in Ottawa a Canadian War Savings Certificate containing the full number of ten War Savings Stamps.

Read our Ads.

THE INTERTYPE

We have just installed, at heavy expense, a Model Z Intertype, direct from the factory, Brooklyn, N. Y., also a new power unit. This will enable us to give you a fully modern and up-to-date newspaper, and also will be of great service for job work.

Our constant aim is the publication of a newspaper that will be a credit and a benefit to the town and district. We want your co-operation in this.

Printer's Ink is a necessity to the modern business man, whether retailer or otherwise. It is the best solvent for business troubles. To get results advertise steadily, and make your ads attractive, tell the truth, and change your ads often. Look upon your space in the Standard as your store window. More people will see your ad than will see your other windows, or your signboard.

Profitable advertising is not of the hit-and-miss variety. It has to be steady and kept up-to-date.

Finally, don't forget that we have the plant to handle every kind of job printing, including Loose Leafs. We are also agents for Counter Check books and other specialties.

Mr. McFerguson, Alberta Government Mining Inspector, visited the Rockyford school on Monday.

A campaign has been started in the Greenwood Municipality with the object of educating the residents of the District of the advantages of raising the limit of 1910,000, by an issue of debentures on the Municipality of the bond for the building of a modern system of roads through the Municipality, as by the present condition of raising the money by tax very little is accomplished; even a maintenance of raising roads is impossible.

Many of the leading citizens and councillors, who previously had been opposed to it, have now reversed their former views and are heartily in favor of it. The roads thus built would be a permanent and lasting benefit to our community, and the system of debenture financing would thus equalize the burden over a number of years, and an amount as well as future residents, who would share the benefit by it. The roads would save pay for themselves by the economy on wear and tear on automobiles, farm machinery, and time saved; and by a proper system of maintenance would return a large profit on the investment. As we understand that the Council is in favor of the project, it may be soon brought up as a vote of the people and there is no doubt as to the issue.

Mr. H. Jones of Humboldt, was a visitor in Rockyford on Tuesday.

Mr. Blackburn, spent a few days in Calgary last week.

BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY.

BECAUSE Irrigation makes the farmer independent of rainfall, and insures good crops at all seasons, but every year. Irrigation makes possible the successful culture of alfalfa, the king of feeders, which insures good returns in dairy and mixed farming. Irrigation means intensive farming and soil settlement with all the advantages of a densely populated agricultural community. Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success when wisely intelligently applied.

This is the most liberal offer of irrigated farm in record. For full particulars, apply to

ALLAN CAMERON, General Supt. of Lands
Canadian Pacific Railway, Dept. of Natural Resources, 929 First Street, E. Calgary, Alberta.

THE UNIVERSAL CAR

"A JOAN OF ARC MACHINE"

"SHE withstood everything in the field and above all was, and still is, the last and only car to survive until the cessation of hostilities."—Extract from letter received by Ford Motor Company, from a British soldier in Africa.

Over shell-torn roads, through water soaked fields, second only to the tanks in its power to climb debris and crater holes, the Ford car made a world famous record in the fighting area of the great war. In press despatches, in field reports, in letters, in rhyme and song the praises of the Ford were sounded.

Ford Runabout \$660 Touring \$690 On open model the Electric Starter and Lighting Equipment \$100 extra. Coupe \$975 Sedan \$1,175 (closed model prices include Electric Starting and Lighting Equipment.) Mountaineer, rims, tire-cards and non-skid tires on rear as optional equipment on closed cars only at \$25 extra. These prices are f. o. b. Ford, Ont. and do not include War Tax.
